F. UNFINISHED BUSINESS

1. Thorn Lake Solar Update

Walter- We were provided with a preliminary site plan that is being reviewed by the consultants. They are planning on attending the next meeting. It will be built to be removed at the end of its time. One concern I have is the panels reflecting light and making an unsafe situation for drivers.

Daubner- What is the expected lifetime of the panels?

Thompson-I believe it is approximately 30 years.

Brooks- The property is leased, correct?

Walter- I believe so.

II. Short Term Rentals

Walter- I think we should put this on hold until we get more direction from our planners or as it makes its way further through legislation.

Kolon- Can we hear Thompson's suggestions?

Walter- Increasing the notification distance to 1,000 ft. and changing duration to 2 years for permits.

Milkey- Freedom Township's planner recommended that they do a regulatory ordinance instead of a zoning ordinance so that the legislation can not affect it.

G. NEW BUSINESS

There is no new business at this time

H. COMMENTS FROM COMMISSIONERS

George- Last month we talked about address ordinances. How are addresses and street names assigned?

Walter- That is what we need to discuss the language for.

Seefeld- On my sheet that has our contact info, my home phone number is now invalid. I drove past the RV park and it seemed like nothing was going on and I do not think they will open in the spring. I also noticed the asphalt millings that were put down on the new trails

Walter- I want to thank Shelly Stace for her time served on the board. She submitted a resignation letter which was accepted. We are now searching for a new planning commission member. We also have a new website. The survey is not published yet, but will be posted soon.

I. PUBLIC COMMENT --- (Limit to 2 minutes, please state name and address)

Milkey- The board did apply for a \$400,000 grant that will be used for trail construction between Carr Park and Gross man Road.
